[Allow Unsafe Port Web Browser](#)

The screenshot shows a Mac OS X desktop environment. The title bar of the window reads "Google Chrome ERR\_UNSAFE\_PORT.app (Programm)". The window contains a terminal window titled "Shell-Skript ausführen" with the following content:

```
Shell: /bin/bash
Eingabe übergeben: An stdin
open /Applications/Google\ Chrome.app --args --explicitly-allowed-ports=6666 &
```

Below the terminal window, there is a table with two columns: "Protokoll" and "Dauer". The table is currently empty.

At the bottom of the window, there is a section titled "Absätze filtern" with the following text:

Bei dieser Aktion werden Absätze gesucht, die den angegebenen Kriterien entsprechen.

**Eingabe:** Text, Formatierter Text  
**Ergebnis:** Text, Formatierter Text

**Version:** 1.2
